

MARYLAND STEM FESTIVAL

BRINGING STEM TO YOU

2021

The Maryland STEM Festival encourages all students, regardless of background or experience, to take a greater interest in STEM, with the hope they will pursue a related career.

This Festival cultivates a positive environment that inspires children to pursue lucrative STEM careers and encourages businesses to invest in Maryland.

The United States is seen globally as an important leader rather than the uncontested leader [in science and technology].” The Festival energizes Maryland’s efforts to respond to challenges in STEM education and the STEM workforce that face the nation. [[Nat'l Science Foundation](#)]

2021 Theme: HEALTH & WELLNESS

2021 BY THE NUMBERS
